6 reviews

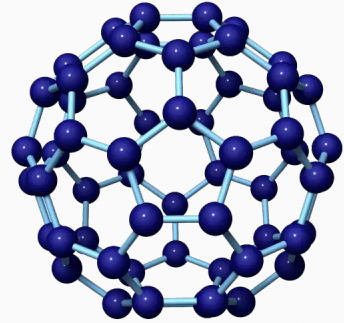

★★★★★ 5 months ago

We started taking MyVital C about a month ago and the biggest change we've seen was with a puppy my son brought home. This little pug was in rough shape. He was the runt of the litter and had water retention on the surface of his brain. His balance was really bad, constantly shaking his head, and could only spin in circles. It's like he was perpetually dizzy. The vet didn't expect him to live long. The day after my son brought him home, our shipment of Vital C showed-up, which included a product for dogs. We've given him 2 to 3 doses a day since then and he is about 80% better. He runs in straight lines and playing with the other dogs. When taken to the vet this past week, she said his improvements seem like a miracle!

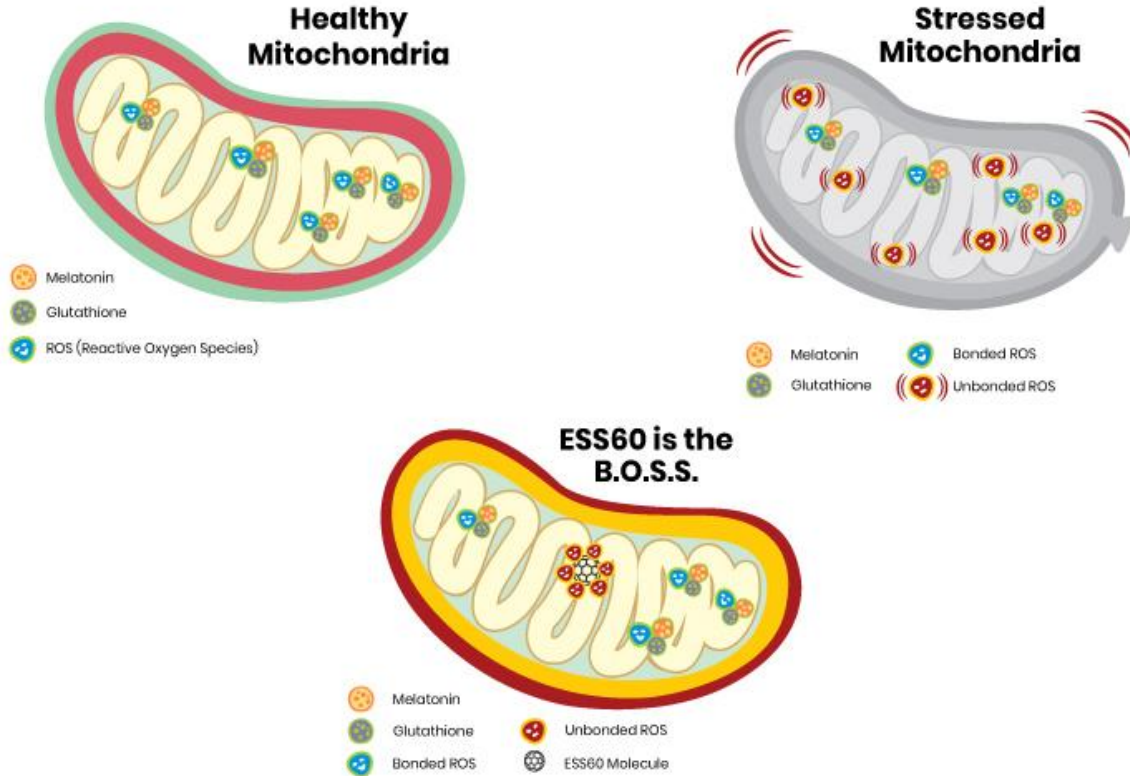

Mechanisms of action

- Sleep
- Oxidation and Inflammation
- B.O.S.S

B.O.S.S. THEORY

Buffering Oxidative Stress System

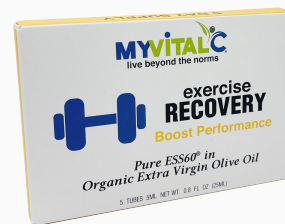

Ongoing Studies

1. Original Baati Study
2. Published with Dr. Fathi Moussa
3. Cross-over Sleep Study
4. hs-CRP

Practitioner Benefits

1. Affiliate / Wholesale Program
2. We ship to Canada - have an NPN number
3. Wholesale prices can get to 50% margins
4. Ongoing training - Monthly Webinar to discuss benefits and how to sell the product to clients
5. Special discount to try the product 30%
6. Get Healthy - Full Script (coming soon)

Products: ESS60 Oils

Products: ESS60 Cosmetics
